Dear Mr. Baughman:

The purpose of this letter is to recommend that CDH approve the Technical Memorandum for OU 11 addressing modification to the field sampling plan (FSP). EPA reviewed responses to our previous comments and feels that our previous concerns with the proposed FSP have been adequately addressed.

Please do not hesitate to contact Arturo Duran of my staff at 294-1080 with any questions you may have.

Sincerely,

Martin Hestmark, Manager
